Swagelok® Tool and Equipment Rental

Professional tools for commercial fluid system fabrication, repair, and maintenance.

Swagelok® Tool and Equipment Rental

Rent quality tools for commercial fluid system fabrication, installation, maintenance, and repair. Use QR codes provided with rented equipment to access training videos. To get started please [email us](#) or call 780-437-0640.

Benchtop Tube Bender

Made of durable aluminum, our bender offers a 1-180° bend range for 1/4 to 1 1/4 in OD tubing. A carrying case and user's manual are included. Rent units by the day, week, or month.

Electric Tube Bender

This tool bends 1-110° on 1 to 2 in OD tubing, using one shoe per size group for many configurations. Features like an emergency stop button enhance safety. Rent units by the day, week, or month.

Hydraulic Swaging Unit

This set helps you pre-swage ferrules onto tubing, speeding up assembly and installation. Kits are available in two sizes, for 1/2 to 2 inch tubing and adapters. Rent units by the day, week, or month.

Orbital Welding System

Rent our power supply with output of up to 200A. With an integrated mass flow controller for OD shield gas flow, units come with a case and accessories. Rent units by the day, week, or month.

Tube Straightener Kit

Use our 5-roll straightener with bare tubing of 1/8 to 1/2 in. The tool comes attached to a platform that is strapped to a pallet. There are instructional videos available to new users. Rent by day, week, or month.

Contact Us

For pricing, availability, and details, please [email us](#) or call 780.437.0640 (7:30am to 5pm MT). We also offer training in small-bore tubing system design, tube bending, fitting installation, and other skills.

About Swagelok Edmonton | Drayton | Fort McMurray

Swagelok is a \$2B developer of industrial fluid system assemblies, products, and services. Swagelok Edmonton is a Swagelok sales and service centre serving Canadian companies in clean energy, chemical, oil and gas, and other industries. With locations in Edmonton, Drayton Valley, and Fort McMurray, we serve northern and central Alberta, the Yukon Territory, the Northwest Territories, the Lloydminster area, and Nunavut.
