

Steam Lance

Safely Heat and Clean Process Equipment

Stream Lance: Innovative product that could be hooked up to a steam line to remove ice build up on mission critical equipment to prevent work stoppage during severe cold weather options.

Product Highlights and Benefits:

- Easy installation & Connectivity
- Class 6 Shut-off Valve
- Insulated tubing ideal for outdoor weather conditions and personnel protection
- Clean process lines and containment vessels
- 1 part number for easy ordering
- Complete assembly pressure-tested
- Ready to use upon delivery (no assembly required on your end)
- Prevent work stoppages with quick deicing

Safe Product Selection

When selecting a product, the total system design must be considered to ensure safe, trouble-free performance. Function, material compatibility, adequate ratings, proper installation, operation, and maintenance are the responsibilities of the system designer and user.

Caution: Do not mix or interchange parts with those of other manufacturers.

Potential Applications:

- Plants
- SAGD
- Refinery
- Pipeline
- Tubing runs
- Instruments

Eliminate solidification of:

- Asphalt
- Ice
- Heavy oils
- Plastics and more
